Vendor: Oracle

Exam Code:1Z0-345

Exam Name: Oracle Policy Automation Cloud Service 2017 Implementation Essentials

Version: Demo

QUESTION 1

The policy model you are creating will be used by developers to automate decisions by calling the OPA Determinations API Assess Service.

Which elements of the project data model must be given names?

A. attributes, entities, and relationships only

B. attributes, entities, relationships, screens, and forms only

C. attributes and relationships only

D. attributes, entities, and screens only

E. attributes and entities only

F. attributes only

G. attributes, entities, relationships, and screens only

Correct Answer: D

QUESTION 2

Which three statements about checkpoints are correct?

A. Checkpoints can be configured for web interviews, but not Policy Automation Mobile interviews.

B. Interviews can have checkpoints after every screen.

C. Interviews must have at least one checkpoint.

D. Checkpoints can be configured for Service Cloud connections, but not for other web service connections.

E. A data connection is required to configure checkpoints for an interview.

F. Interviews can have checkpoints after hosen screens.

Correct Answer: CDE

QUESTION 3

Consider the following excerpt from source material for a building permit:

"The City believes that the beauty of its lands is important. Any owner of an existing building that exceeds threes stories within city limits must pay an additional yearly fee. The fee is $100 for every story in excess of 3."

A rule concludes: An owner must pay an additional fee yearly fee if _____.

Which three options complete the conditions for this rule based on the requirements?

A. the building is an existing building

B. the building is located within city limits

C. the city believes the beauty of its lands is important

D. the number of building stories > 3

E. the fee = (the number of building stories ?3)*100

Correct Answer: ABD

QUESTION 4

Below is a screen from the Pathfinder sample policy model installed with Policy Modeling: Where should you go to change the text "Higher Education"?

A. Interview tab | Styles

B. Project tab | Summary

C. Interview tab | About You screen

D. Interview tab | Your Details screen

Correct Answer: A

QUESTION 5

You are asked to make a pdf-formatted form available for download at the end of an interview, containing all responses

that the user provided during the interview.

Which three steps are required to accomplish this?

A. In the Interview tab, add a form control on the final screen.

B. Using labels and other controls, re-create the content of the form on the final interview screen.

C. Create a form template using BI Publisher containing values referenced from OPA.

D. Link to a pre-made pdf on the final screen of the interview, containing a list of all possible questions that may be posed in the interview.

E. Add names to the attributes you want to include in the form.

F. Add an upload control in your final interview screen.

Correct Answer: BCE

QUESTION 6

Your policy model contains the following: Attributes:

Type	Attribute Text
Text	the child
Boolean	they are under 18 at the time of applying
Boolean	the child is eligible

Rule:

the child is eligible if
they are under 18 at the time of applying

You have set the attribute "the child" to use substitution, but the name is not automatically being substituted into the "under 18" interview question.

Which guideline about choosing attribute text needs to be applied to the policy model for this substitution to work?

A. Boolean attributes should be complete grammatical sentences.

B. Non-Boolean attributes need to start with an article.

C. Boolean attributes should contain the exact text of any Non-Boolean attributes for which substitution is desired.

D. Non-Boolean attributes should contain the exact text of any other Non-Boolean attributes for which substitution is desired.

E. Boolean attributes should be kept simple but explicit.

Correct Answer: E

QUESTION 7

You are creating an online advice tool to help students work out if they may be eligible for a subsidy on textbooks. Your customer has this requirement for the final interview screen:

Display the bookstore\\\'s address, but only if the student is eligible for the subsidy and the application date is after 1 January 2017.

Which three steps satisfy this requirement?

A. Attach the visibility rule to the screen control containing the bookstore\\\'s address.

B. Attach the visibility rule to the bookstore address attribute in the Data tab.

C. Attach the attribute `the student is eligible for the subsidy" to the screen control containing the bookstore\\\'s address.

D. Create an attribute containing the bookstore\\\'s address.

E. Create an attribute rule concluding "the bookstore\\\'s address should be displayed" is true if "the student is eligible for the subsidy" and "the application date > 2017-01-01".

F. Create a screen label containing the bookstore\\\'s address.

Correct Answer: DEF

QUESTION 8

You have created a policy model which adjust employee shift start and end times, to align with an existing payroll system.

If an employee clocked in at 09:22, what will the value of the adjusted employee\\\'s clock in time be?

A. 09:15

B. 09:30

C. 09:25

D. 09:20

E. Uncertain

F. 09:00

G. 10:00

Correct Answer: B

QUESTION 9

Which two options require custom development with the OPA Mobile SDK?

A. running OPA Mobile on Android devices

B. incorporating OPA Mobile interviews into composite mobile applications

C. adding an upload control to a OPA Mobile interview screen

D. running OPA Mobile interviews while offline

E. synchronizing data collected in OPA Mobile with a custom back-end system

Correct Answer: BE

QUESTION 10

You have a number attribute "the child\\'s age in years". In an interview, you want to ensure that the user is only able to enter ages between 0 and 15.

What are the three methods to achieve this?

A. Specify the maximum and minimum values within the Edit Attribute dialog box.

B. Write a warning event rule.

C. Use a regular expression within the Edit Attribute dialog box.

D. Write an error event rule.

E. Create a number value list with the allowed ages, then associate the list with the child\\'s age attribute.

Correct Answer: ADE

QUESTION 11

After deploying a new version of a policy model to production on the Policy Automation Hub, you have been advised there is a problem and you need to roll back to a previous version.

Using the minimum number of steps, what instructions would you give your Hub Administrator to achieve this?

A. Go the Repository page in the hub, click the policy model and delete the current version.

B. Go the Deployments page in the hub, click the policy model and delete the current version.

C. Go the Repository page in the hub, click the policy model, click Activate on the previous version.

D. Go the Deployments page in the hub, click the policy model, click Activate on the previous version.

E. Download the previous version from the Hub, open it in Policy Modeling and then upload and deploy it directly from Policy Modeling.

F. Go the Deployments page in the hub, click the policy model and select Deactivate from the Actions menu.

Correct Answer: BD

QUESTION 12

Which three actions will help avoid or identify a multiply proven attribute error?

A. Double-click the attribute on the Interview tab to see if the attribute is used on multiple screens.

B. Use the "Go To" option in Word to see if the attribute is proven in another rule.

C. Right-click the attribute on the Data tab to see if the attribute is proven in another rule.

D. Right-click the attribute on the Project tab to see if the attribute is used in multiple forms.

E. Check the error list on the Rules tab for multiply proven attribute errors.

Correct Answer: CDE
