Vendor:Cisco

Exam Code:350-701

Exam Name:Implementing and Operating Cisco
Security Core Technologies (SCOR)

Version:Demo

QUESTION 1

Refer to the exhibit.

```
Sysauthcontrol          Enabled
Dot1x Protocol Version      3

Dot1x Info for GigabitEthernet1/0/12
-----
PAE                        = AUTHENTICATOR
PortControl                 = FORCE_AUTHORIZED
ControlDirection           = Both
HostMode                    = SINGLE_HOST
QuietPeriod                 = 60
ServerTimeout               = 0
SuppTimeout                 = 30
ReAuthMax                   = 2
MaxReq                       = 2
TxPeriod                    = 30
```

Which command was used to display this output?

- A. show dot1x all
- B. show dot1x
- C. show dot1x all summary
- D. show dot1x interface gi1/0/12

Correct Answer: A

https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/sec_usr_8021x/configuration/xe-3se/3850/secuser-8021x-xe-3se-3850-book/config-ieee-802x-pbA.html

QUESTION 2

What is provided by the Secure Hash Algorithm in a VPN?

- A. integrity
- B. key exchange
- C. encryption
- D. authentication

Correct Answer: A

Reference: <https://www.ciscopress.com/articles/article.asp?p=24833&seqNum=4>

QUESTION 3

What is the role of Cisco Umbrella Roaming when it is installed on an endpoint?

- A. To protect the endpoint against malicious file transfers
- B. To ensure that assets are secure from malicious links on and off the corporate network
- C. To establish secure VPN connectivity to the corporate network
- D. To enforce posture compliance and mandatory software

Correct Answer: B

Umbrella Roaming is a cloud-delivered security service for Cisco's next-generation firewall. It protects your employees even when they are off the VPN.

QUESTION 4

An organization is receiving SPAM emails from a known malicious domain. What must be configured in order to prevent the session during the initial TCP communication?

- A. Configure the Cisco ESA to drop the malicious emails
- B. Configure policies to quarantine malicious emails
- C. Configure policies to stop and reject communication
- D. Configure the Cisco ESA to reset the TCP connection

Correct Answer: A

QUESTION 5

Which proxy mode must be used on Cisco WSA to redirect TCP traffic with WCCP?

- A. transparent
- B. redirection
- C. forward
- D. proxy gateway

Correct Answer: A

Reference:

<https://www.cisco.com/c/dam/en/us/td/docs/solutions/CVD/Aug2013/CVDWebSecurityUsingCiscoWSADesignGuide-AUG13.pdf>

QUESTION 6

Which type of attack is social engineering?

- A. trojan
- B. phishing
- C. malware
- D. MITM

Correct Answer: B

Phishing is a form of social engineering. Phishing attacks use email or malicious web sites to solicit personal, often financial, information. Attackers may send email seemingly from a reputable credit card company or financial institution that requests account information, often suggesting that there is a problem.

QUESTION 7

An organization uses Cisco FMC to centrally manage multiple Cisco FTD devices. The default management port conflicts with other communications on the network and must be changed. What must be done to ensure that all devices can communicate together?

- A. Manually change the management port on Cisco FMC and all managed Cisco FTD devices
- B. Set the tunnel to go through the Cisco FTD
- C. Change the management port on Cisco FMC so that it pushes the change to all managed Cisco FTD devices
- D. Set the tunnel port to 8305

Correct Answer: A

: The FMC and managed devices communicate using a two-way, SSL-encrypted communication channel, which by default is on port 8305. Cisco strongly recommends that you keep the default settings for the remote management port, but if the management port conflicts with other communications on your network, you can choose a different port. If you change the management port, you must change it for all devices in your deployment that need to communicate with each other. Reference: <https://www.cisco.com/c/en/us/td/docs/security/firepower/misc/fmc-ftd-mgmt-nw/fmc-ftd-mgmtnw.html>

QUESTION 8

What are two advantages of using Cisco Any connect over DMVPN? (Choose two)

- A. It provides spoke-to-spoke communications without traversing the hub

- B. It allows different routing protocols to work over the tunnel
- C. It allows customization of access policies based on user identity
- D. It allows multiple sites to connect to the data center
- E. It enables VPN access for individual users from their machines

Correct Answer: CE

QUESTION 9

Which threat involves software being used to gain unauthorized access to a computer system?

- A. virus
- B. NTP amplification
- C. ping of death
- D. HTTP flood

Correct Answer: A

QUESTION 10

Refer to the exhibit. A network administrator configures command authorization for the admin5 user. What is the admin5 user able to do on HQ_Router after this configuration?

```
HQ_Router(config)# username admin5 privilege 5
HQ_Router(config)#privilege interface level 5 shutdown
HQ_Router(config)#privilege interface level 5 ip
HQ_Router(config)#privilege interface level 5 description
```

- A. set the IP address of an interface
- B. complete no configurations
- C. complete all configurations
- D. add subinterfaces

Correct Answer: B

The user "admin5" was configured with privilege level 5. In order to allow configuration (enter globalconfiguration mode), we must type this command:(config)#privilege exec level 5 configure terminalWithout this command, this user cannot do any configuration.Note: Cisco IOS supports privilege levels from 0 to 15, but the privilege levels which are used by default are privilege level 1 (user EXEC) and level privilege 15 (privilege EXEC)

QUESTION 11

DRAG DROP

Drag and drop the cloud security assessment components from the left onto the definitions on the right.

Select and Place:

User entity behavior assessment	Develop a cloud security strategy and roadmap aligned to business priorities
Cloud data protection assessment	Identify strengths and areas for improvement in the current security architecture during onboarding
Cloud security strategy workshop	Understand the security posture of the data or activity taking place in public cloud deployments
Cloud security architecture assessment	Detect potential anomalies in user behavior that suggest malicious behavior in a software-as-a-service application

Correct Answer:

	Cloud security strategy workshop
	Cloud data protection assessment
	Cloud security architecture assessment
	User entity behavior assessment

QUESTION 12

Which two mechanisms are used to control phishing attacks? (Choose two)

- A. Enable browser alerts for fraudulent websites.
- B. Define security group memberships.
- C. Revoke expired CRL of the websites.

D. Use antispymware software.

E. Implement email filtering techniques.

Correct Answer: AE
