Vendor: Novell

Exam Code:50-696

Exam Name: Foundations of Novell Open Enterprise
Server NetWare

Version: Demo

QUESTION 1

Which type of OES NetWare network security controls who can manage objects in your tree?

A. Login Security

B. Printing Security

C. eDirectory Security

D. File System Security

Correct Answer: C

QUESTION 2

Which directory attribute prevents a directory from being compressed, even if compression is enabled at the volume level?

A. P

B. Dc

C. Di

D. Ic

E. Ri

F. Sy

G. Ci

Correct Answer: B

QUESTION 3

You\\'re planning to install your OES NetWare server into an existing tree. There are three servers already installed in the tree. They communicate with each other using the IPX protocol. One is a NetWare 4.1 server, one is a NetWare 4.2

server, and one is a NetWare 5.0 server. The NetWare 4.1 server has Support Pack 6 installed.

The NetWare 4.2 server has Support Pack 9 installed. The NetWare 5.0 server has Support Pack 6a installed. Will the installation of the OES NetWare server into this tree be successful?

A. Yes, all prerequisite requirements have been met.

B. No, Support Pack 9a or later must be installed on the NetWare 4.2 server.

C. No, Support Pack 7 or later must be installed on the NetWare 5.0 server.

D. No, OES NetWare can\\'t communicate with older servers using the IPX protocol.

E. No, the version of eDirectory included in OES NetWare is not compatible with NetWare 4.1 servers.

F. No, the version of eDirectory included in OES NetWare is not compatible with NetWare 4.2 servers.

Correct Answer: E

QUESTION 4

Every directory and file in the OES NetWare server file system has a(n) _____ that specifies the eDirectory objects that are trustees of the file or directory and what rights they have to it.

Correct Answer: Access Control List OR ACL Trustee List

QUESTION 5

Click the Point and Click button to begin.

An employee resigned his position in your company today. You need to remove his user object in the tree.

Click on the iManager option you would use to do this.

Correct Answer:

Point and Click

Click the Point and Click button to begin.

An employee resigned his position in your company today. You need to remove his user object in the tree. Click on the iManager option you would use to do this.
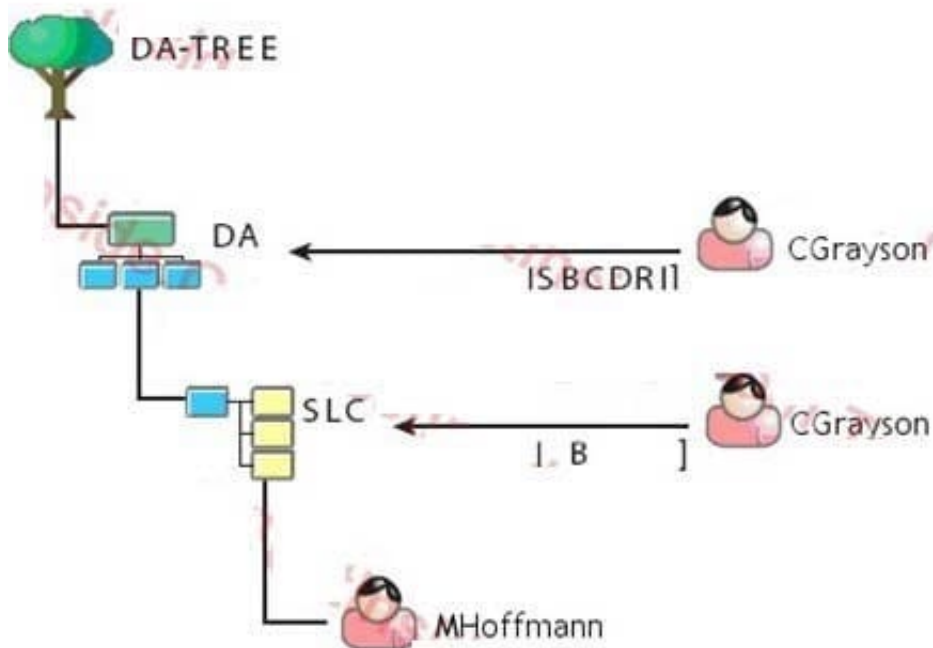

Point and Click

Novell *iManager*

Collection Owner Access

User: admin.SLC.DA.DA-TREE.

Roles and Tasks
