- A. Security incident Procedures
- B. Assigned Security Responsibility
- C. Access control
- D. Facility Access Controls

E. Security Management Process

Correct Answer: E

---

#### QUESTION 4

A doctor sends patient records to another company for data entry services. A bonded delivery service is used for the transfer. The records are returned to the doctor after entry is complete, using the same delivery service. The entry facility and the network they use are secure. The doctor is named as his own Privacy Officer in written policies. The doctor has written procedures for this process and all involved parties are documented as having been trained in them. The doctor does not have written authorizations to disclose Protected Health Information (PHI). Is the doctor in violation of the Privacy Rule?

- A. No - This would be considered an allowed "routine disclosure between the doctor and his business partner.
- B. Yes - There is no exception to the requirement for an authorization prior to disclosure, no matter how well intentioned or documented.
- C. Yes - a delivery service is not considered a covered entity
- D. Yes - to be a "routine disclosure" all the parties must have their own Privacy Officer as mandated by I-IIPAA.
- E. Yes - this is not considered a part of "treatment", which is one of the valid exceptions to the Privacy Rule.

Correct Answer: A

---
