Correct Answer: B

QUESTION 4

The human resources department requires a TM1 Web Labor Detail report which shows Total Salary, Benefits, and Taxes for each employee within a selecteddepartment. The user should be able to select a department and have the

rows of the report display just the employees in that department with the costs across the columns. Employees should be sorted in descending order based on Total Salary. UnfortunatelySalary, Benefits, and Taxes are all stored in different cubes and the cubes only share the Employee and Department dimensions.

How should you build the Labor Detail report?

A. Use three slices, one for each of the source cubes and combine using Excel formulas.

B. Use one slice with zero suppression for Salary and two snapshots for the other cubes.

C. Use an Active Form.

D. Use the In-Spreadsheet Browser.

Correct Answer: C

QUESTION 5

What is the differencebetween a TM1 Sandbox and a Personal Workspace?

A. A Personal Workspace allows you to work in a private area where a Sandbox is shared.

B. A Personal Workspace is a special default unnamed Sandbox where you begin your work.

C. A Personal Workspace is shared.

D. A Personal Workspace does not require you to commit your data as a Sandbox does.

Correct Answer: B

QUESTION 6

An international company has an existing TM1 server application they use for planning, forecasting, and reporting. The corporate strategydepartment wants to share parts of this application with external consultants and partners. They decide to create Cognos Insight workspaces which includes data from this server application combined with additional analysis and content. They intend to distribute a single workspace ".cdd" file to the recipients.

How should they integrate the TM1 server data with additional content resulting in distributable Cognos Insight workspace files?

A. Connect to the server using Distributed Mode, save the workspace and then modify as needed.

B. Drag and drop TM1 cube views and subsets into the workspace, save the workspace and then modify as needed.

C. Connect to the server using Connected Mode, save the workspace and then modify as needed.

D. Import TM1 cube views and subsets, save the workspace and then modify as needed.

Correct Answer: D
