Correct Answer: C

QUESTION 8

Your customer has two HP StoreOnce 4900 Backup systems. The customer is evaluating functionality on their Catalyst stores. The systems are installed using the instant-on demo license, which lasts 90 days.

If permanent licenses are not applied, what will happen after the 90-day period is over?

A. All Catalyst stores will go offline and data will be lost.

B. A notification is sent every 24 hours that the licenses have expired.

C. Replication target libraries will stop receiving replicated data.

D. Encrypted Catalyst stores will become un-encrypted.

Correct Answer: B

QUESTION 9

How do you perform a tailback of a service set running on node two after you fix hardware issues on an HP StoreOnce Multi-node system?

A. Execute ^hardware fallback node2.

B. Perform a regular shutdown of both nodes.

C. Restart Service Set one on node two.

D. Reboot the IBRIXfile system.

Correct Answer: C

QUESTION 10

You want to upgrade the firmware on an HP StoreOnce Backup system. Match each step to the correct action.

list rpm files	▼
repository folder content	▼
list all the packages staged	▼
unpack the package into /stage/packages	▼

Hot Area:

list rpm files	▼
	StoreOnce_Master.rpm
	system show repository
	system load package StoreOnce_Master.rpm
	system show packages

repository folder content	▼
	StoreOnce_Master.rpm
	system show repository
	system load package StoreOnce_Master.rpm
	system show packages

list all the packages staged	▼
	StoreOnce_Master.rpm
	system show repository
	system load package StoreOnce_Master.rpm
	system show packages

unpack the package into /stage/packages	▼
	StoreOnce_Master.rpm
	system show repository
	system load package StoreOnce_Master.rpm
	system show packages

Hot Area:

Correct Answer:

list rpm files

<pre>
StoreOnce_Master.rpm
system show repository
system load package StoreOnce_Master.rpm
system show packages
</pre>

repository folder content

<pre>
StoreOnce_Master.rpm
system show repository
system load package StoreOnce_Master.rpm
system show packages
</pre>

list all the packages staged

<pre>
StoreOnce_Master.rpm
system show repository
system load package StoreOnce_Master.rpm
system show packages
</pre>

unpack the package into /stage/packages

<pre>
StoreOnce_Master.rpm
system show repository
system load package StoreOnce_Master.rpm
system show packages
</pre>

QUESTION 11
